

Mandatory Training Registration

Amended Rule 1469 – Hexavalent Chromium Emissions from Chrome Plating and Chromic Acid Anodizing Operations

Rule 1469 requires personnel from all chrome plating and chromic acid anodizing facilities to complete **mandatory** training and certification **every two years**. This training is required for personnel responsible for environmental compliance, maintaining plating bath chemistries, and testing and recording plating bath surface tension.

AQMD, working closely with the Metal Finishing Association of Southern California, has developed an outline and training materials for the course. Training will start at 1:00 PM and is expected to end by 4:30 PM and will be conducted at [AQMD Headquarters](#), Room CC6. The cost for training is \$35 for an individual or \$70 per company (up to three people and \$20 for each additional person if sending four or more people), paid in advance to SCAQMD. Class fees will be used to defray printing and production costs. To minimize costs, **one** set of class materials will be provided per individual enrollment or company. Individuals will receive certificates at the conclusion of the training session.

Please fill out and return the attached registration form and payment at least **two weeks** prior to a scheduled class. Please complete and submit a **separate copy** of the form for **each person** attending the mandatory training and certification course. **Classes are scheduled for: January 28, February 25, March 25, April 29 and (Spanish) May 27, 2010.** Training sessions will be filled in the order in which registration forms, including payment, are received, up to a maximum of 80 per session. If you have any questions, please contact Diane Oswald at (909) 396-2658 or by e-mail at doswald@aqmd.gov.

Please, no walk-in registration.
